PRODUCED BY

INSTITUTIONAL SUPPORT
2016 will be a great year for the AMIB, the Brazilian Association of Critical Care Medicine, and all Brazilian care professionals in intensive care. Our respected national event, the CBMI, which is already considered the largest of its kind in Latin America and the third in the world, will be held simultaneously to two major international meetings: the Congreso Panamericano e Ibérico de Enfermería Intensiva and the Congreso Panamericano e Ibérico de Medicina Crítica y Terapia Intensiva, sponsored by AMIB and FEPIMCTI (Federación Panamericana e Ibérica de Sociedades de Medicina Crítica y Terapia Intensiva - Pan American and Iberian Federation of Critical and Intensive Care Medicine).

The event promises to be great by bringing together three important moments of intensive care and the most respected names in the world in such expertise.

We are already working on our scientific program and we expect to receive five thousand participants from Brazil and other countries, promoting the contact and the exchange of experiences with the main leaders of the Americas, Spain and Portugal and the enrichment of our plenary sessions.

We invite all of you to attend this important meeting for the Brazilian and Ibero-American intensive care area.
The highlights of the AMIB’s National Congress, CBMI, has always been an excellent scientific program. It is elaborated with the most important topics of the intensive care practice, which are presented by renowned professionals in Brazil and other countries as well.

We are preparing a major event, which will include speakers from Pan American and Iberian countries and overseas, they will bring to our participants many scientific researches, innovative information and high quality lectures.

For the Pan e Ibérico de Enfermeria, AMIB has confirmed the participation of two well known nurses from each affiliate country of the FEPIMCTI. Respected professionals will be also sent for the activities related to adult ICU and pediatric topics, which will surely enrich our discussions and open tasks for the development of future works.
